MEMORANDUM FOR: Executive Director
Director, Intelligence Community Staff
Deputy Director for Intelligence
Chairman, National Intelligence Council

FROM : Special Assistant to the Director for Interdepartmental Affairs

SUBJECT : DCI Meeting with PFIAB, 8 July 1982

1. The Director is scheduled to meet with the President's Foreign Intelligence Advisory Board on 8 July. This will be the Director's first meeting with the PFIAB since 12 May. As at the last meeting with the PFIAB, the Director will want to brief them on those key international events that have occurred as well as significant developments within the Intelligence Community.

2. To satisfy the above requirement the Director needs the benefit of inputs from all NFIB agencies. I request, therefore, that the following be prepared:

-- Talking points providing about a 15-minute presentation on significant international events over the last two months. This would touch on the obvious crises such as the Falklands crisis and its implications for U.S. relations with Latin America, Lebanon, and any other key issues or developments that come to mind. I believe this can best be put together by the DDI in coordination with the appropriate NIOs.

-- A summary of PFIAB activities and interactions with Community agencies since 12 May. This can be best handled by the IC Staff.

-- Inputs from each NFIB agency on those developments in their areas of specialties which are worth calling to the PFIAB's attention. This also would be best put together by the IC Staff.

3. The Director would like to have this material available by noon on Thursday. He would like to look at it and work on the presentation over

the long weekend. I have already been in touch with the various action officers regarding the preparation of the above materials.

4. As far as inputs from each of the NFIB agencies, because of proximity and the short deadline, I will ask for the CIA input separately. Thus, the Intelligence Community Staff need only solicit inputs from the other NFIB agencies.

5. The above material should give the Director plenty to work with, but past experience shows that he will ask for additional specific inputs once he has reviewed the various summaries. I can envision, for instance, that he will want to report on the status of the CI study. There are probably other issues of current concern that he will want to report on specifically. I will let you know as soon as possible next week what those are.
